

Join us in ending cancer as we know it, for everyone.

The American Cancer Society will host the third annual Fork Cancer Cincinnati on May 28, 2026! The evening will bring together the best of Cincinnati's vibrant food, cocktail, and entertainment scenes. This "Party For A Purpose" empowers Cincinnati's emerging young professionals with their fundraising efforts to support local cancer education, advocacy, research, and patient services. Fork Cancer will also recognize and celebrate the fundraising efforts of our Tastemakers- a group of Cincinnati's emerging young leaders who are determined to find a cure.

- Cleveland, Ohio
- Houston, Texas
- Kansas City, MO
- Lexington, Ky.
- New Orleans, La.
- New York City

\$276,587 raised for the Tri-State Research Fund. Three grants are active in Ohio with investigators.

ACS provided **3,231 total services to 410 individuals** in the Cincinnati area, including transportation, lodging, and ACS CARES navigation program.

Road to Recovery provided **842 free rides** to treatment for **63 cancer patients**.

Our National Cancer Information Center provided **328 services to 1,139 individuals** who reached out via phone or chat and received a service from ACS.

More than 81% of ACS revenue **directly funds the mission.**

“

The Road To Recovery program has been a blessing to our family. With two family members going through cancer treatment at the same time, we were no longer able to drive to our own appointments. We were dependent on our children for rides. The Road To Recovery program lessened our families load by providing transportation to our multiple appointments each month. The drivers are prompt, dependable, and so helpful and kind. We are so thankful to the American Cancer Society for providing this amazing service. It has been a

“

Not only having the opportunity to have a lovely home setting in which to live that was cost-free, but, also, a community of people who are going through a similar journey made such a difference. They're here to support, and cheer, and provide consolation to those who need it. It is that community that has been most impactful, along with the wonderful science happening in the hospital systems that we have access to.

“

Twenty-two years ago, I was diagnosed with breast cancer. Twenty-two years later after a double mastectomy, I'm cancer free, walking for more birthdays, research and a common goal for everyone to be cancer free.

When hearing the words, 'You have cancer,' having support and guidance goes a long way. We do what we do so we have more survivors. We want to have a Relay For Life so there is a cure and for cancer to not exist.
